AgeLess Telomeres

An Aggressive Formula that also Defends

AgeLessTelomeres contains a premium extract of astragalus (3% astragalosides) which initiates, reinforces, and sustains immune response. **AgeLessTelomeres** includes *N*-acetylcysteine, *R*(+)-*alpha*-lipoic acid, ascorbic acid, and vitamin E, which provide an excellent balance of fat- and water-soluble antioxidants. This actively protects all organ systems from oxidative stress that causes deterioration at the cellular level. **AgeLessTelomeres** is formulated for the resilience critical for a long and healthy life.

AgelessTelomeres contains:

Astragalus (3% astragalosides)

Astragalus (*Astragalus membranaceus*) is a hardy perennial plant native to the harsh climate and terrain of Northeast Asia, with a long history of use for strengthening immune response. **AgeLessTelomeres** contains 450 mg per capsule of a special extract from the root of the astragalus plant standardized to a potency of 3% astragalosides. Human trials have shown astragalus to trigger immune-cell activation, with results in as little as 24 hours.^[1]

***N*-Acetylcysteine**

Known as NAC, this amino acid is a critical precursor required for the production of intracellular glutathione. Glutathione is recognized as the major antioxidant produced by human cells; it neutralizes free radicals and reactive oxygen species (waste byproducts of cellular energy production). It also preserves vitamins C and E in their active forms for maximum antioxidant action. Adequate glutathione levels are also necessary, as it's a critical cofactor in DNA synthesis and repair.

***R*(+)-*alpha*-Lipoic Acid**

This special, superior form of ALA is unique in its ability to function as both a fat- and water-soluble antioxidant. *R*(+)-*alpha*-Lipoic acid provides protection from free radicals from within and outside of cells. Its ability to cross the blood-brain barrier also serves to protect the brain from harmful free radicals. *R*(+)-*alpha*-Lipoic acid is a potent antioxidant on its own; however, its true effectiveness is its ability to regenerate other antioxidants such as vitamins E and C or glutathione.

Ascorbic Acid

Ascorbic acid provides additional antioxidant protection by regenerating cycles of vitamin E and glutathione production. Vitamin C also has a stabilizing effect on the entire formula.

AgeLess Telomeres

D-*alpha*-Tocopheryl

This form of vitamin E is a fat-soluble antioxidant that stabilizes cell membranes to protect them from oxidative damage. Vitamin E supplementation has been shown to be effective in immune system function.

Healthy Aging and Immunity

There are many variables within our control that can increase our immune system performance, including lifestyle choices such as eating a well-balanced diet, getting regular exercise, resting adequately, not smoking, and drinking little to no alcohol; however, aging is the common degenerative force we all face.

AgeLessTelomeres provides the body and mind with specific nutrients that strengthen immune function critical for healthy aging. Aging is inevitable; yet, it doesn't have to go hand in hand with an increased susceptibility to colds, flu, and illnesses.

We are making no claim for this product for antiaging. This product will help boost and support your immune system, which may lead to a longer, healthier, happier life.

Each vegetable capsule contains:

Astragalus (<i>Astragalus membranaceus</i>) root extract, 3% astragalosides	450 mg
N-Acetyl-L-cysteine	175 mg
R(+)- <i>alpha</i> -Lipoic acid (1,2-dithiolane-3-pentanoic acid)	25 mg
Vitamin C (ascorbic acid)	10 mg
Vitamin E (from D- <i>alpha</i> -tocopheryl acid succinate)	6.7 mg AT (10 IU)

Other ingredients: Peppermint flavour, vegetable magnesium stearate, and silicon dioxide in a non-GMO vegetable capsule composed of vegetable carbohydrate gum and purified water.

NPN 80043917 · V0482-R3

Directions of use:

Adults: Take 1 capsule daily with a meal providing protein or as directed by your health-care practitioner. Consult a health-care practitioner for use beyond 6 months.

Manufactured under strict GMP (Good Manufacturing Practices).
