New Roots Essence

Industry creates novel compounds on a daily basis to meet the needs and demands of modern society. Despite our best efforts, we all eventually come in contact with some that can accumulate in our body tissues at the expense of our health. **New Roots Essence** can help you break free from toxins that pose an immediate or unknown long-term threat to your health.

New Roots Essence is a synergistic tincture formulated with nine certified organic and wild-crafted botanicals. These nutrients work in unison to dislodge and excrete accumulated toxins and metabolic waste via the kidneys, skin, and mucous membranes.

A Synergy of Ingredients

Nutrient-rich burdock root serves as the botanical backbone of **New Roots Essence** with its potent antibacterial and anti-inflammatory properties. It's renowned for its blood-cleansing traits and works with the liver and lymphatic system to cleanse toxins from the body. It also increases microcirculation beneficial for epidermal health.

Blessed with an abundance of naturally occurring vitamins and compounds which help reduce inflammation, sheep sorrel exerts diuretic action instrumental in toxin elimination.

Slippery elm contains antioxidant and anti-inflammatory compounds. It also binds to toxins and accelerates intestinal transit to promote toxin elimination.

Rhubarb strengthens kidney performance and regulates bowel function for ease of toxin elimination.

Blessed thistle is a gentle diuretic that also aids in the secretion of compounds that promote healthy digestion.

The inner bark of pau d'arco contains potent biologically active compounds with antibacterial, antifungal, antiviral, and antiparasitic activity.

Red clover features a mosaic of beneficial compounds that are revered for their blood-thinning and -purifying action.

Watercress is a nutritional powerhouse that exerts antibacterial, antiviral, and anti-inflammatory action, along with being a diuretic for ease of toxin elimination.

Mineral-rich kelp completes our formula as a source of iodine and for its capacity to neutralize free radicals.

Each tablespoon contains a crude quantity equivalent of:

| | |
|--|---------|
| Organic burdock root (<i>Arctium lappa</i>)..... | 172 mg |
| Organic sheep sorrel herb top (<i>Rumex acetosella</i>)..... | 86 mg |
| Wild-crafted pau d'arco (<i>Tabebuia heptaphylla</i>) bark..... | 30.7 mg |
| Organic slippery elm bark (<i>Ulmus rubra</i>)..... | 21 mg |
