# PurePancreas

The pancreas is an organ measuring approximately 14 cm (5½”), nestled behind the stomach within the abdominal cavity. Its hybrid duties include producing enzymes that break down proteins, carbohydrates, lipids, and nucleic acids in the food we eat. These critical enzymes exit via the pancreatic duct on their way to the small intestines. As an endocrine gland, the pancreas secretes the hormones insulin and glucagon directly into the bloodstream. Glucagon causes the liver to convert energy stores of glycogen to glucose, with insulin allowing cells to absorb glucose to meet their energy requirements.

With advancements in the isolation and synthesis of specific hormones, glandular therapy has decreased in western medicine; however, it’s still a popular therapeutic strategy employed in traditional Chinese medicine and contemporary naturopathic practice. The roots of glandular therapy stem from the philosophy that oral consumption of an animal gland will strengthen the corresponding gland in the host (you). The scientific basis for animal glandulars is that they’re a rich source of organ-specific nutrients in their naturally-occurring form.

Pancreatic insufficiency can result in a shortage of pancreatic enzymes critical for effective digestion and assimilation of nutrients. It can also decrease insulin output which can contribute to type II diabetes. Age-related impairment of pancreatic performance can also benefit from **PurePancreas**.

New Roots Herbal’s **PurePancreas** is sourced from grass-fed New Zealand lamb, free of pesticides, growth hormones, and antibiotics; then freeze-dried to retain freshness and potency.

#### Each tablet contains:

Pancreas (organ) [from lamb ( <i>Ovis aries</i> )]*	450 mg
Vitamin C	6 mg

\* Superior quality, freeze-dried organ from New Zealand grass-fed lamb. Guaranteed free of pesticides, growth hormones, antibiotics, and BSE.

**Other ingredients:** Vegetable magnesium stearate, silicon dioxide, microcrystalline cellulose, stearic acid, and croscarmellose sodium.

NPN 80058292 · V0556-R1

#### Suggested use:

**Adults:** Take 1 tablet daily immediately before a meal/food or as directed by your health-care practitioner.

Manufactured under strict GMP (Good Manufacturing Practices).
